

INVESTOR PRESENTATION | AUGUST 11, 2026

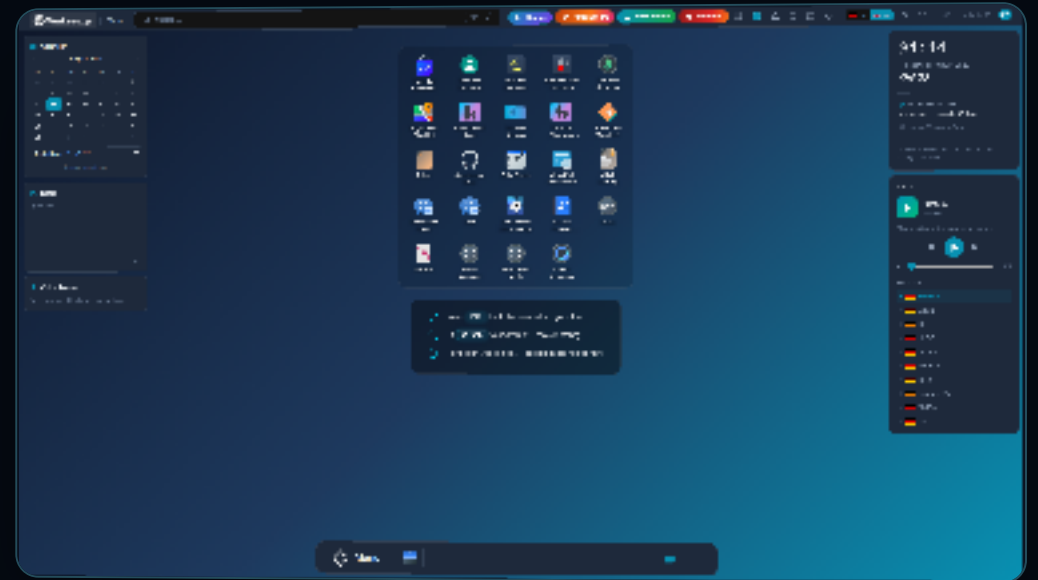

The operating system for German bureaucracy. Nobody had built it. Until now.

Werkzeug.ge is the first browser operating system purpose-built for German small-business administration. Mandatory B2B e-invoicing is the entry point.

STATUTORY ENTRY

CONNECTED PLATFORM

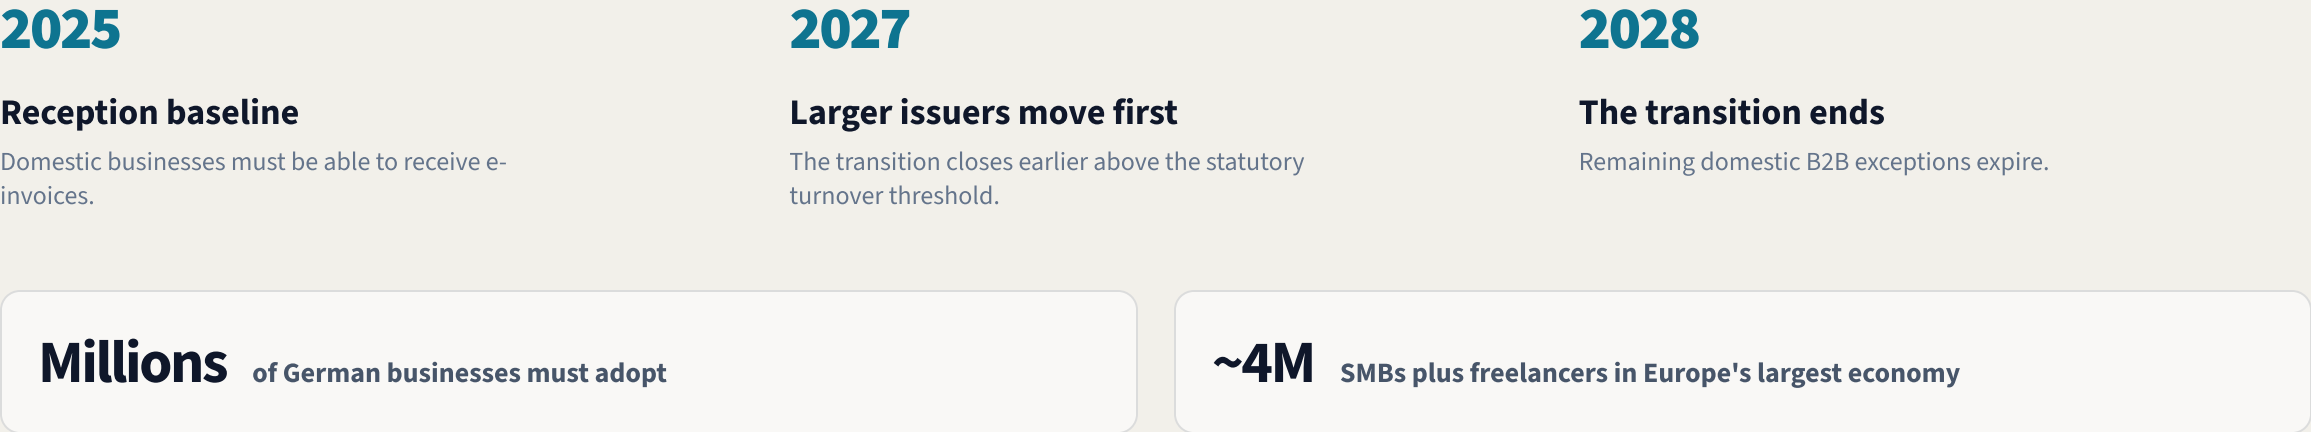

GERMAN DEPTH

LIVE PRODUCT | OPEN BETA | TRY AT WERKZEU.GE

Germany just put software adoption on a legal clock.

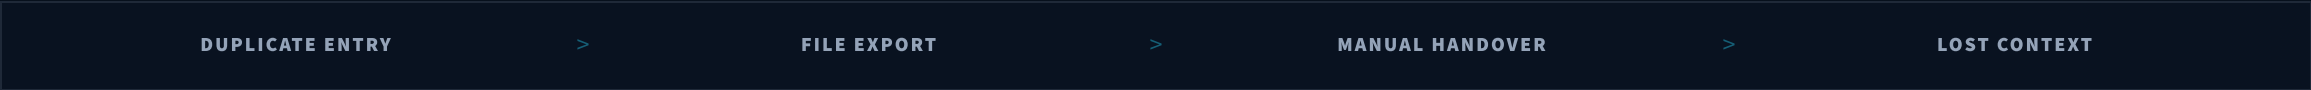

Domestic B2B e-invoicing is becoming mandatory in phases through 2028. For millions of German businesses, adopting new software is no longer optional.

Primary source: [German Federal Ministry of Finance, E-Rechnung FAQ](#).

The German SMB admin stack is a maze.

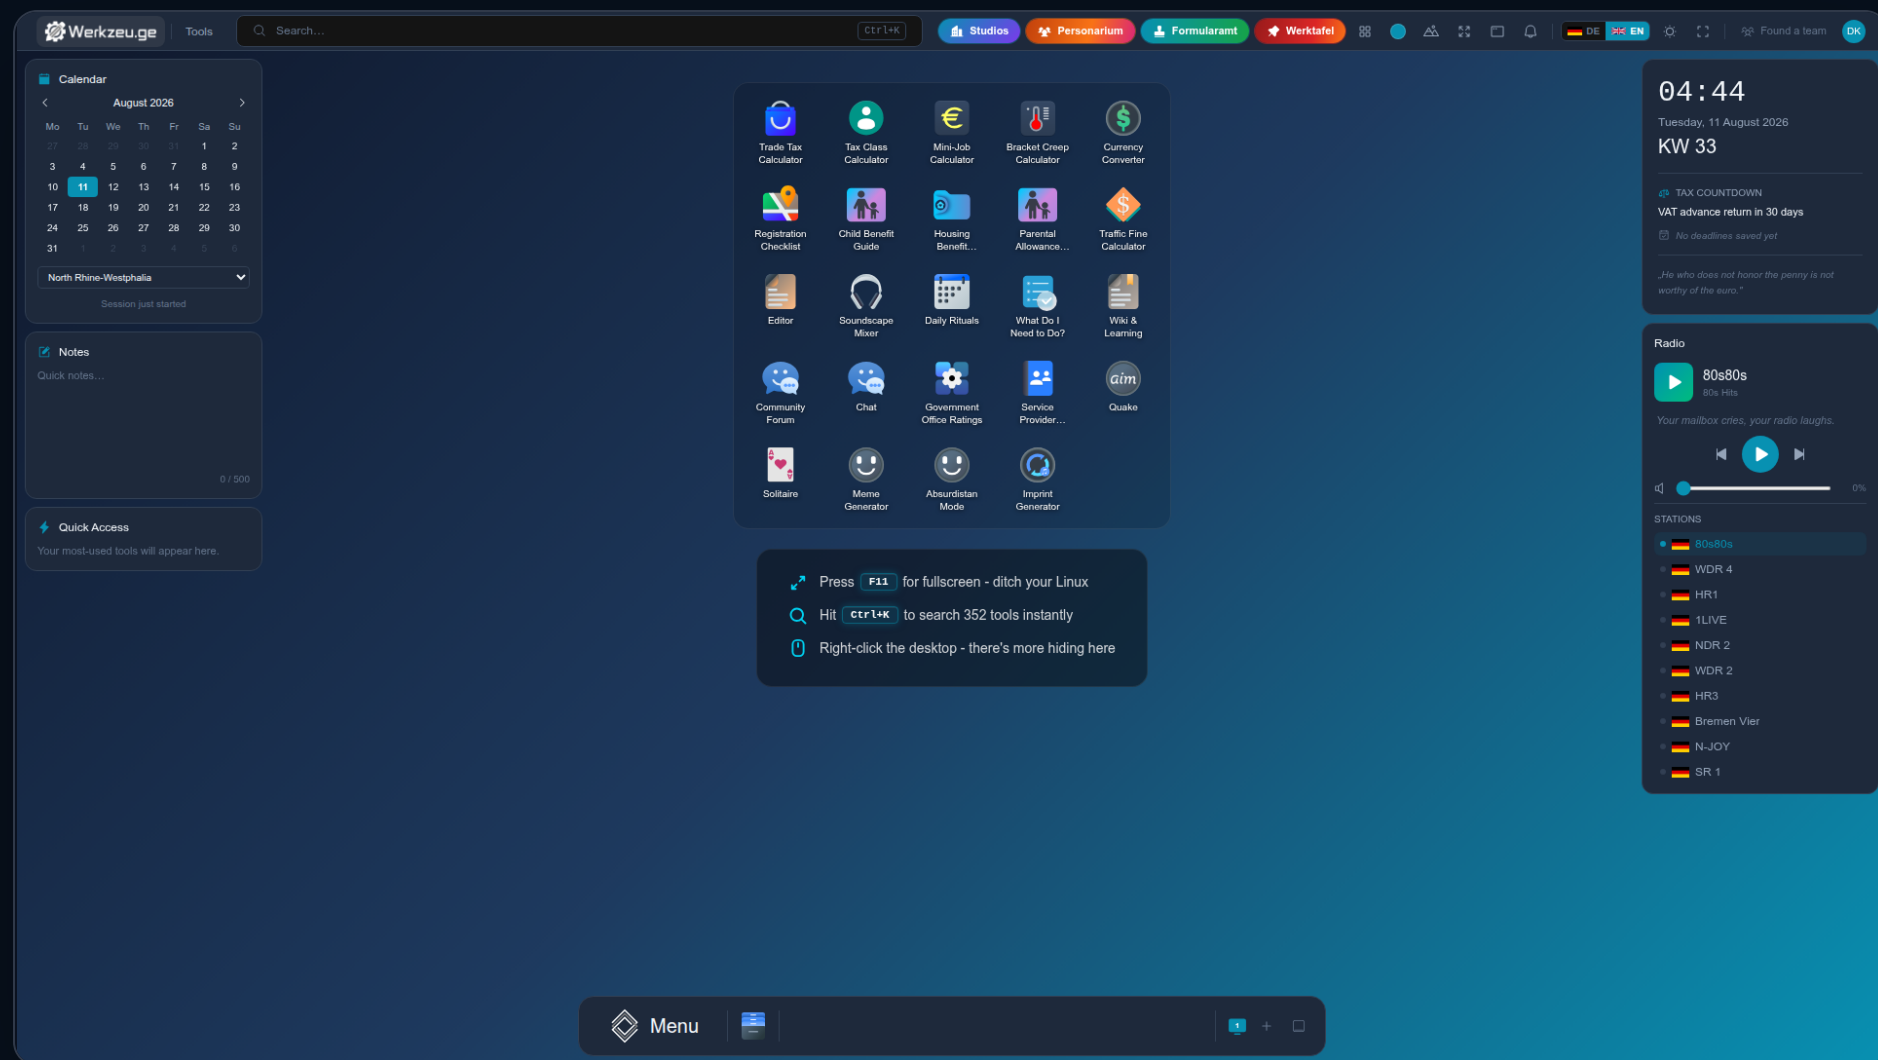

01	02	03	04	05
Sell	Deliver	Invoice	Handover	Operate
CRM and quotes live in one product.	Projects and time live in another.	German formats create a local boundary.	The tax advisor expects DATEV-ready files.	Forms, HR and deadlines remain separate.

Every boundary creates another login, another export and another re-keyed record.

Global suites stop at the border. Local point solutions stop at the next workflow.

Werkzeug.ge turns the maze into one working desktop.

**350+**

working tools

Two shells

visual desktop and conventional dashboard

Live now

open beta, usable without signup

The same system also works as a conventional dashboard.

The screenshot displays the Werkzeu.ge dashboard, which features a top navigation bar with the logo, a search bar, and various utility icons. The main area is divided into six tool panels:

- VAT Calculator:** Includes tabs for 'Fakturen' and 'Fakturen - Invoicing & Bookkeeping'. It has a 'Netto → Brutto' and 'Brutto → Netto' calculator with a 19% standard rate and a 7% reduced rate. Common scenarios like 'Restaurant bill (food)', 'Electronics', 'Service invoice', 'Books', 'Groceries', and 'Public transport' are listed. The net amount is set to 'e.g. 100.00'.
- Gross-to-Net Calculator:** Includes tabs for 'Steuern' and 'Tax Studio'. It has a '2026' and '2027' calculator. The gross salary is set to 'e.g. 3,500' with a 'Month' frequency. Presets and advanced options are available.
- PDF Merge:** Includes tabs for 'PDF Studio' and 'PDF Merge'. It has a 'Document Engineering Studio' tab. It prompts the user to 'Drag PDFs here' or 'click to select (max. 50 MB per file, up to 50 files)'. It states 'No PDFs yet. Drop some in and watch the bureaucratic magic happen. Everything stays in your browser. No upload, no server, no traces.'
- Currency Converter:** Includes tabs for 'Finance' and 'Currency Converter'. It has a 'Category: Finance' tab. It shows 'German Transfers' with 'From' set to 'EUR - Euro' and 'To' set to 'USD - US Dollar' at a rate of '1,15'.
- Password Generator:** Includes tabs for 'Datenschutz' and 'Password Generator'. It has a 'Privacy Studio' tab. It prompts the user to 'Rolls passwords right in your browser, nothing is transmitted. Real security also needs a safe place to store them afterwards.' It has a 'Password' tab and a 'Passphrase' tab. Presets are available. Length is set to '16'. Options include 'Uppercase (A-Z)', 'Lowercase (a-z)', 'Digits (0-9)', and 'Symbols'. A 'Symbol set: 29 chars' is shown. A checkbox for 'Exclude ambiguous characters (0, O, I, l, 1)' is present. The count is '1'.
- QR Code Generator:** Includes tabs for 'Generators' and 'QR Code Generator'. It has a 'Category: Generators' tab. It prompts the user to 'Your QR code is built right in your browser. Scan it yourself before printing so you know the link or text is actually correct.' It has 'Single', 'Batch', 'Presets', and 'History' options. It has a 'URL / Link' tab and 'Plain Text', 'Wi-Fi', 'vCard', 'Email', 'Phone', and 'SMS' options. The URL is set to 'https://werkzeu.ge'. A 'CUSTOMIZATION' section is visible. A 'Generate QR Code' button is present. The status is 'Choose type, enter data, generate QR code. Done.'

LIVE DASHBOARD | SIX SIMULTANEOUS TOOLS

LIVE PRODUCT

DEMO ACCOUNT DATA IS SYNTHETIC

TWO WORKING INTERFACES

01

Choose the shell

Desktop for spatial work. Dashboard for a familiar operational view.

02

Compose the day

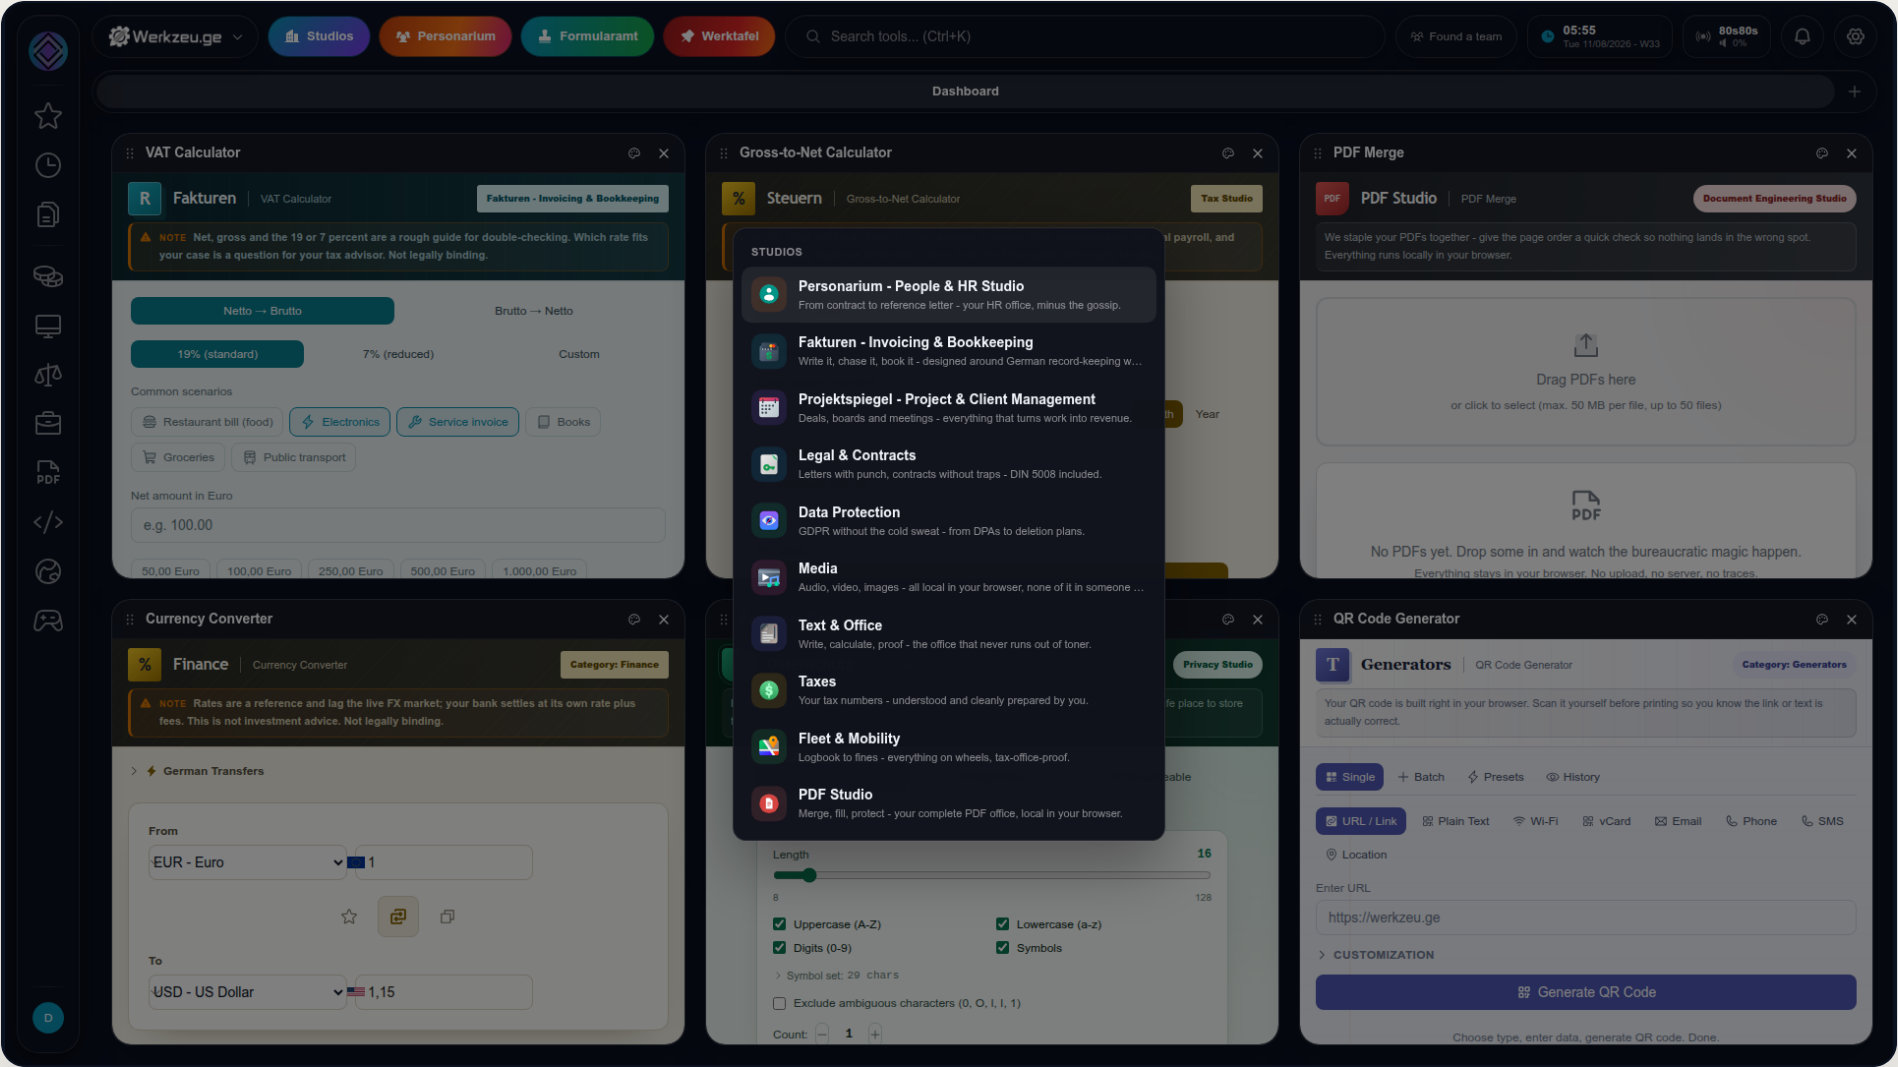

Pin, resize and run multiple tools on one canvas.

03

Keep one account

The same tools, files and workflows live underneath both interfaces.

Ten studios make a 350-tool platform navigable.

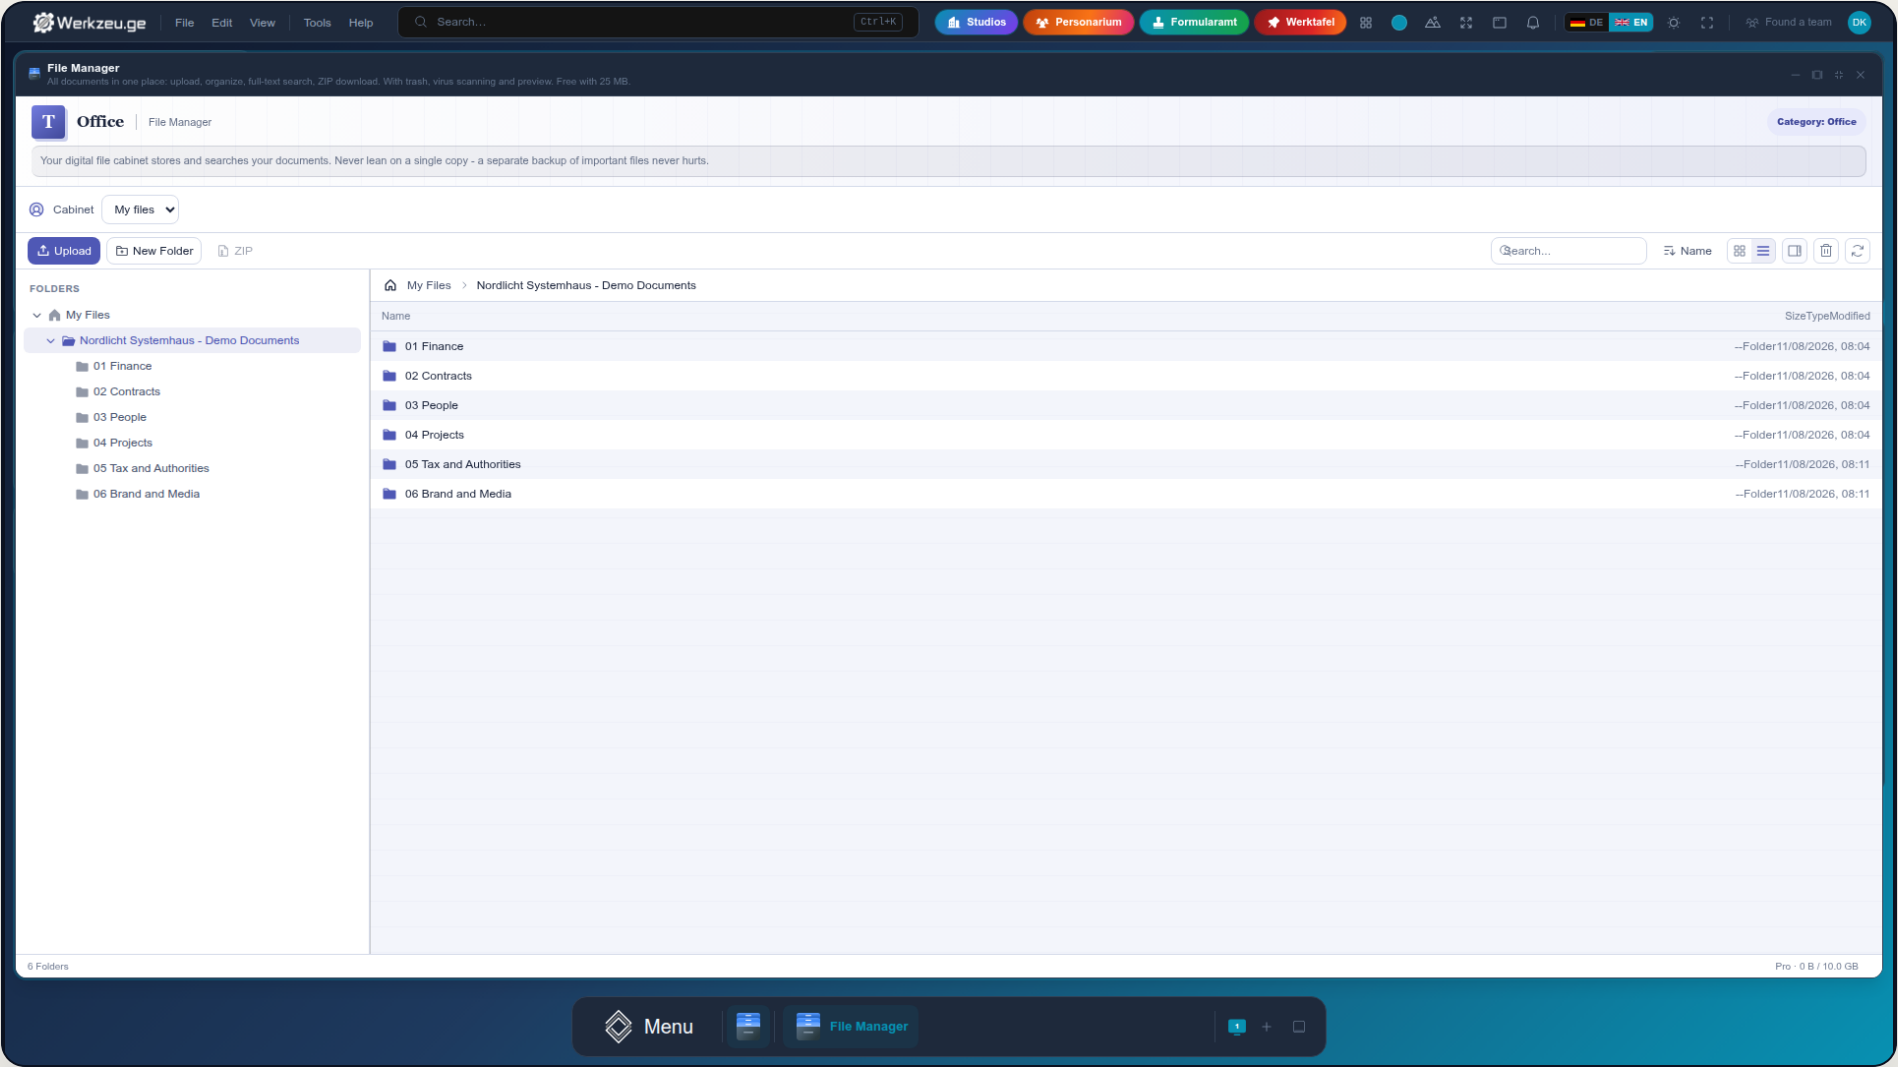

Core operations
People, invoicing, projects and clients.

German administration
Legal, privacy, taxes and fleet.

Daily production
Media, text, office and PDF work.

The operating system has a document memory.

LIVE AKTENSCHRANK | PERSONAL DOCUMENT CABINET

01

One cabinet

Selected invoices, inbound documents, personnel files and signed PDFs can return to structured folders.

02

One working context

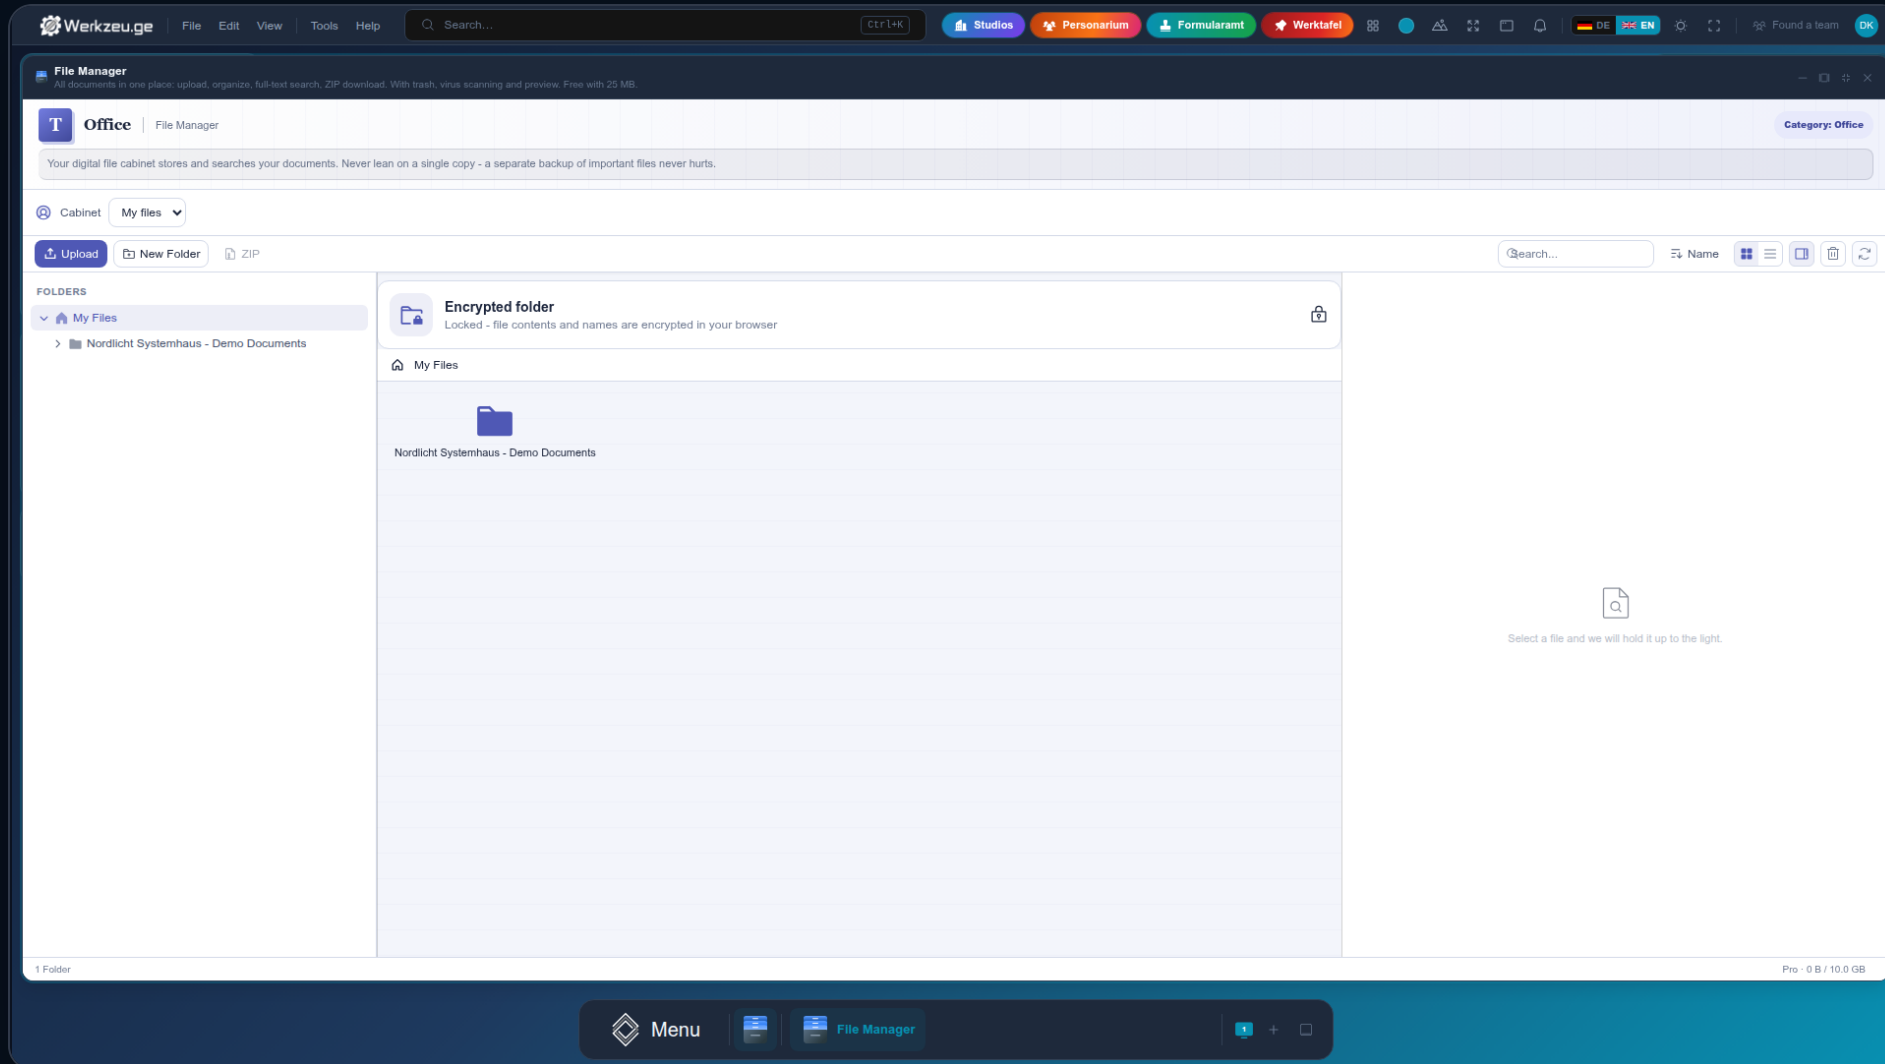

Nested folders, tags, compatible previews and clean-file gating replace isolated downloads.

03

Two ownership modes

Personal storage and organization cabinets sit behind the same operating layer.

For files even the operator should not be able to read.

LIVE LOCKED ENTRY | SEPARATE PERSONAL PROTECTED AREA

LIVE PRODUCT

DEMO ACCOUNT DATA IS SYNTHETIC

BROWSER-ENCRYPTED PERSONAL VAULT

01

Encrypted before upload

Contents and descriptive metadata are encrypted in the browser with a separate password.

02

Ciphertext at the boundary

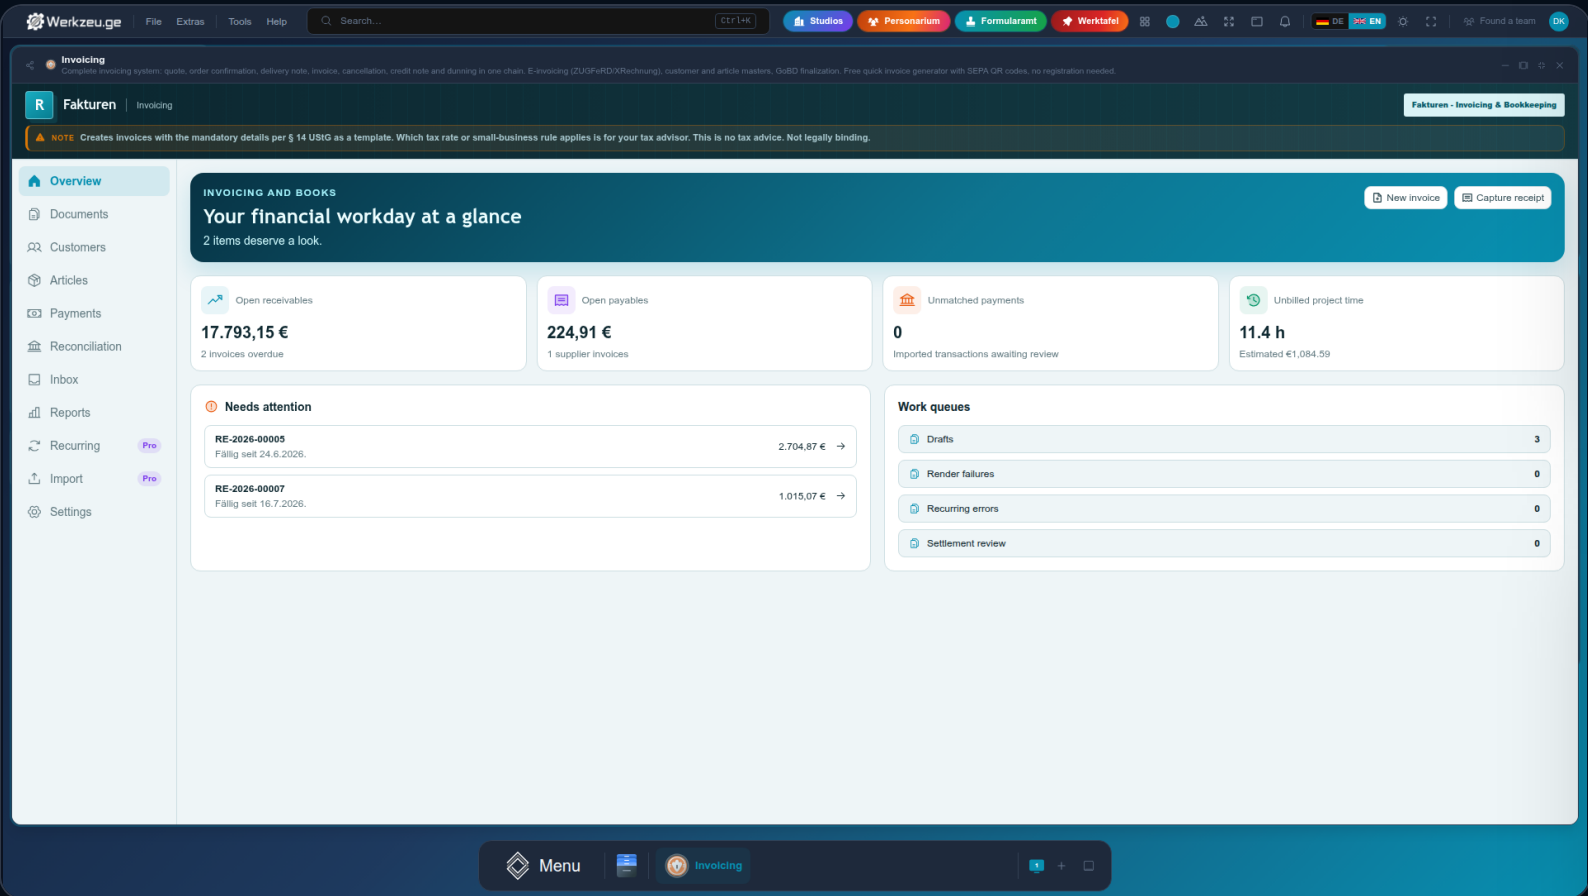

The server receives opaque identifiers, ciphertext and an encrypted key envelope, not the original filename or plaintext.

03

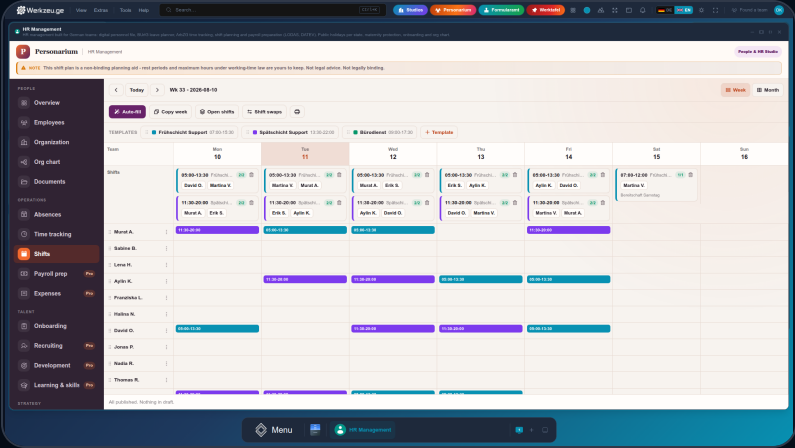

Privacy with explicit trade-offs

No server search, preview, antivirus, sharing or CryonOffice inside the protected area.

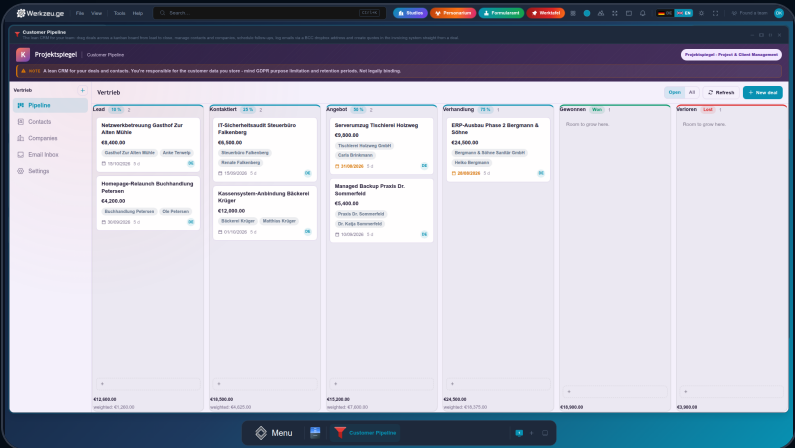

People, customers and money move through real working surfaces.

FAKTUREN
receivables, payables, queues and unbilled time

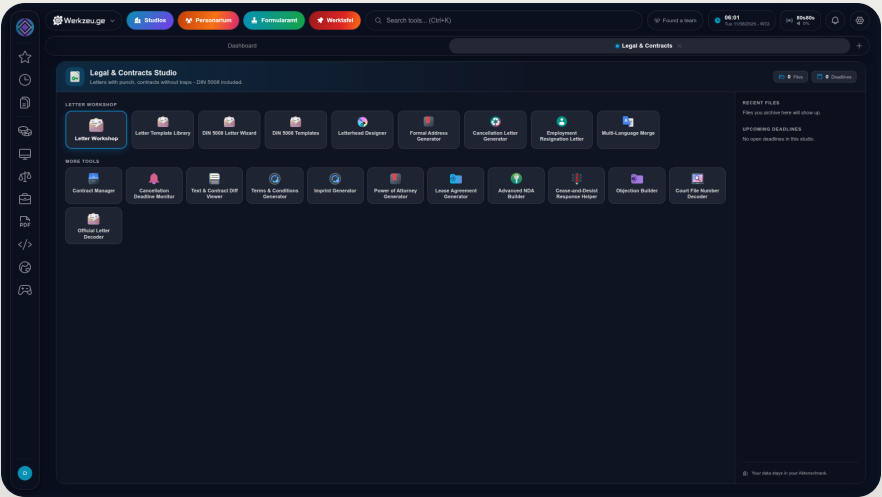

PERSONARIUM
people, shifts, time and payroll preparation

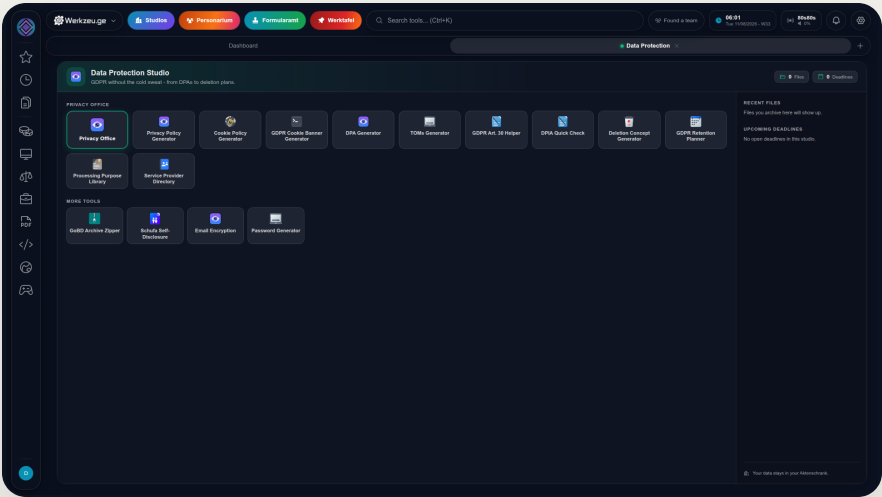

PROJEKTSPIEGEL
companies, contacts, deals and quotes

German business work extends far beyond accounting.

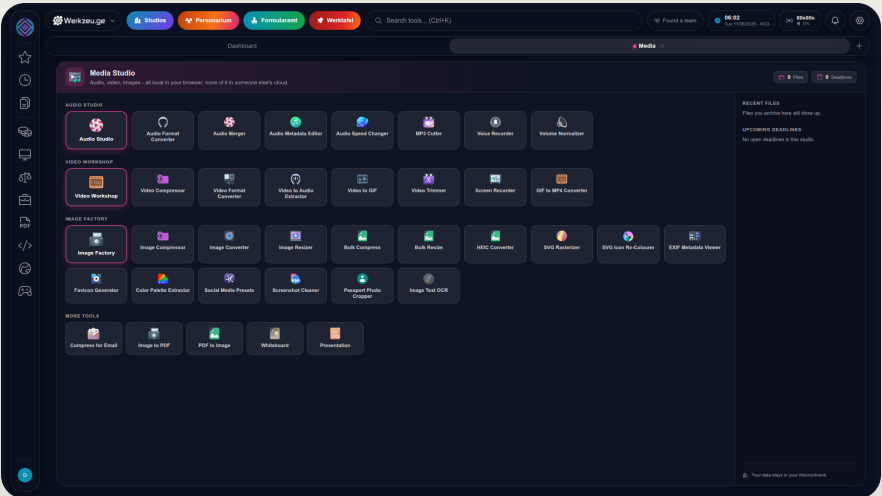

LEGAL AND CONTRACTS

letters, contracts and deadlines

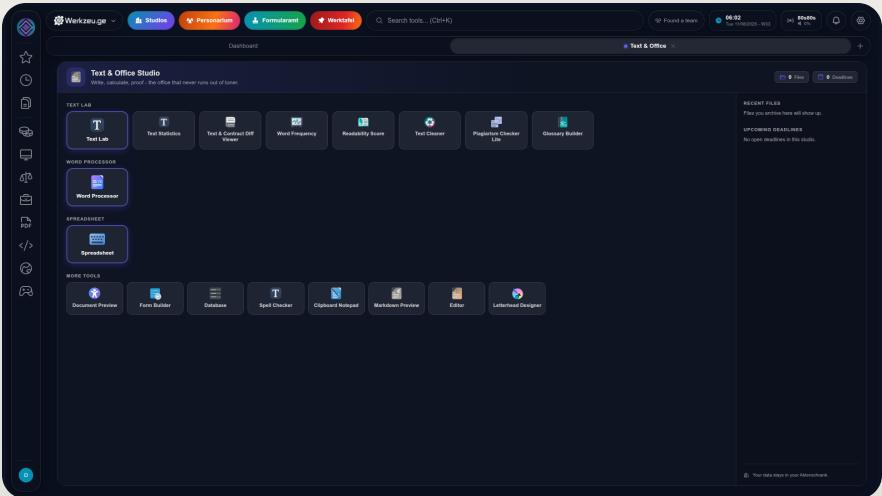

DATA PROTECTION

privacy documentation and workflows

MEDIA

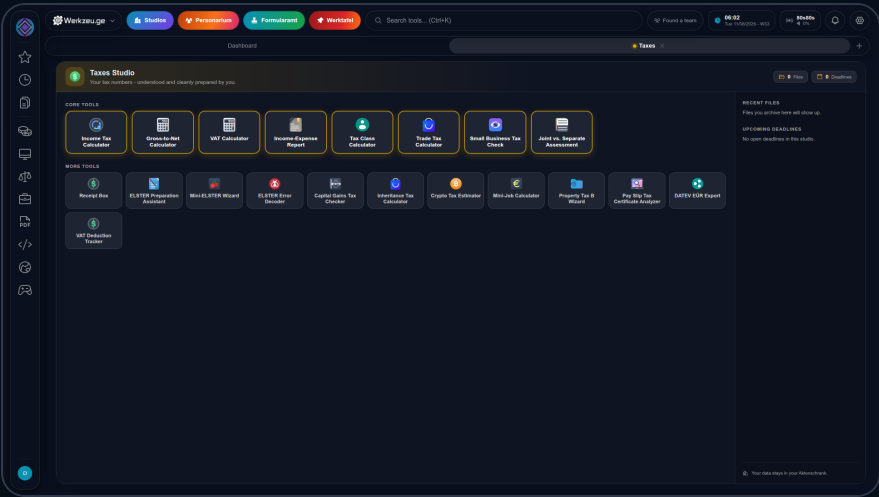

audio, video and image work

TEXT AND OFFICE

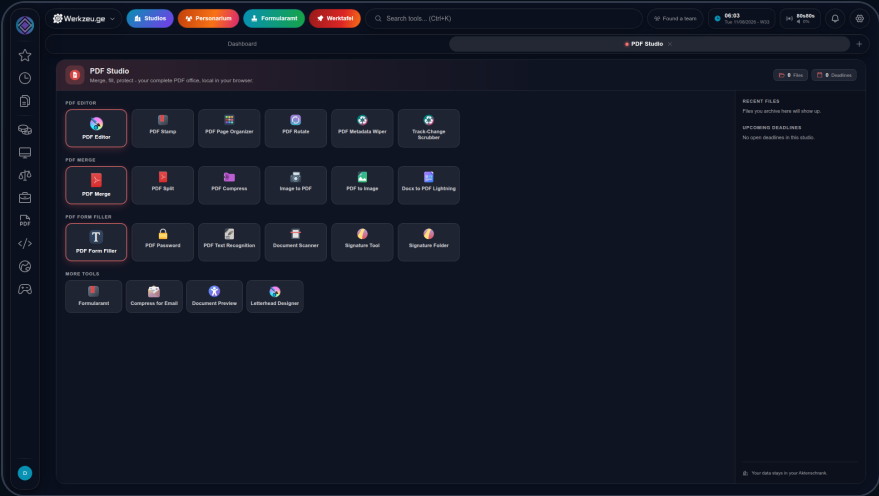

writing, calculation and daily office tools

Taxes, mobility, PDFs and government forms stay in the same system.

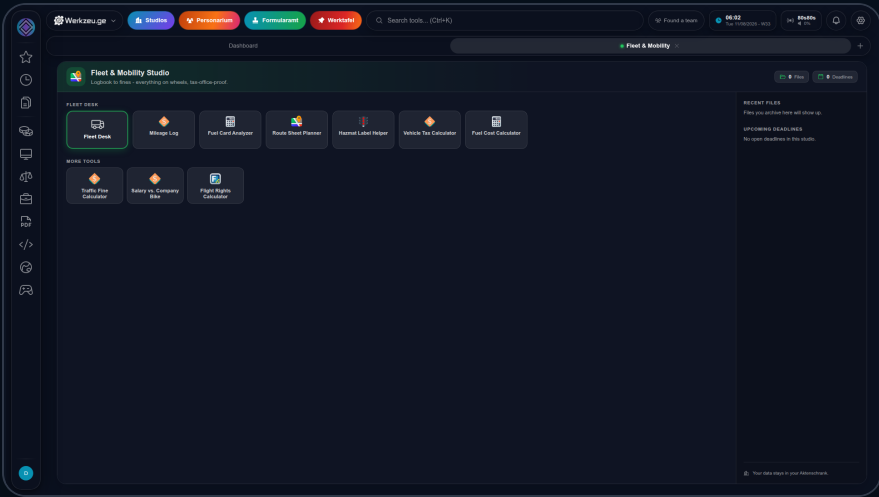

TAXES

German tax calculators and preparation tools

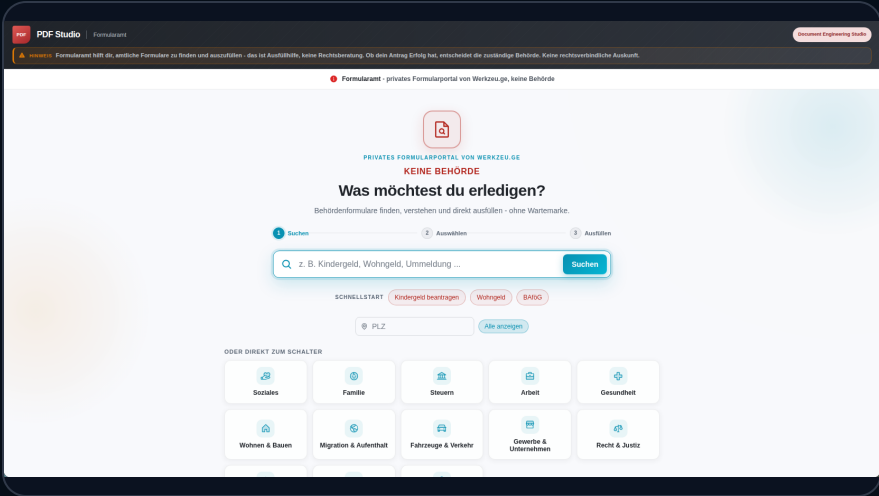

PDF STUDIO

merge, fill, protect and transform documents

FLEET AND MOBILITY

logbooks, costs and vehicle workflows

FORMULARAMT

6,800+ forms catalogued, 3,200+ browser-fillable

SHIPPED PRO RENDERER | PREFILLED SYNTHETIC DRAFT

Shipped product renderer

The browser-local demonstration uses the shipped LiveDocumentPreview and invoice calculation engine.

Live A4 preview

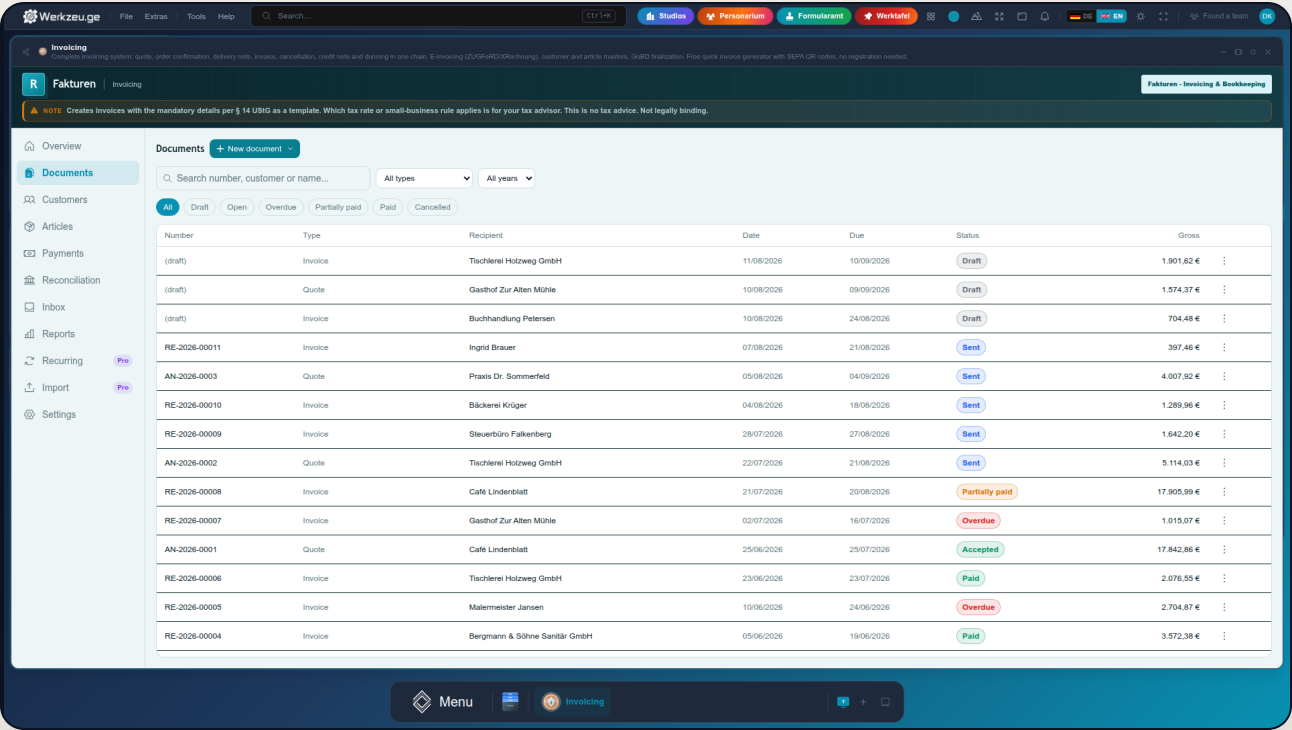

The shipped document surface responds as the prefilled synthetic draft changes, without account data or persistence.

Full Pro workflow

Inside the authenticated product, the workflow continues into XRechnung, ZUGFeRD and DATEV EXTf handover.

THE REQUIRED FIRST WORKFLOW

Start with the invoice every German business must adopt.

LIVE WORKFLOW | SYNTHETIC DEMO DATA

FORMAT

XRechnung 3.0

CII syntax, plus ZUGFeRD aligned with EN 16931.

PROOF

Official validator

The output passes the official KOSIT validator.

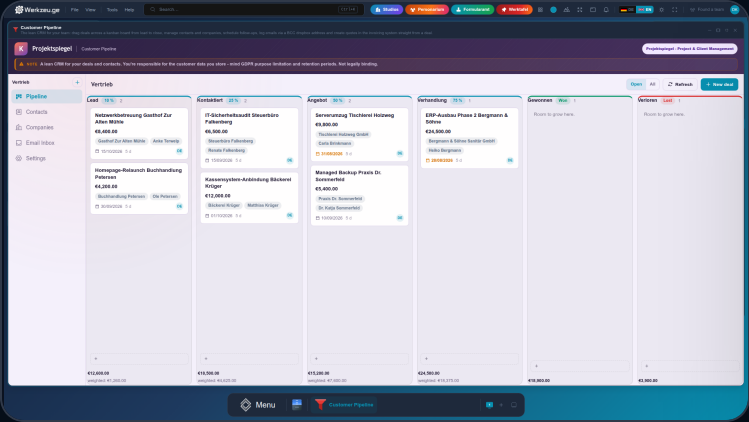

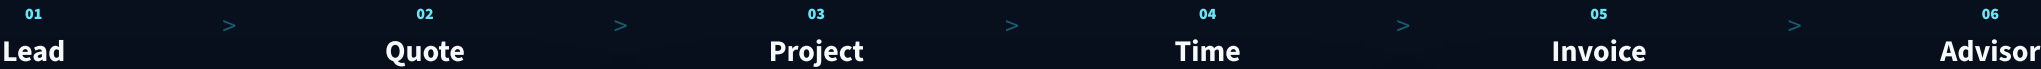

HANDOVER

DATEV EXTF

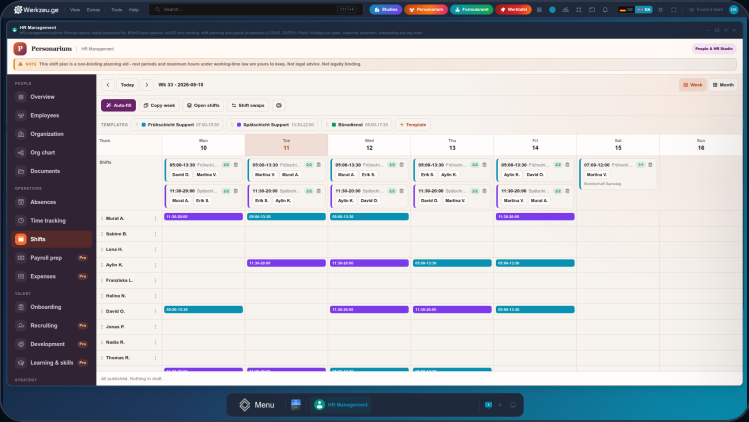

SKR 03/04 export for tax advisor import.

Mandatory compliance earns the first workflow. Connected administration earns the account.

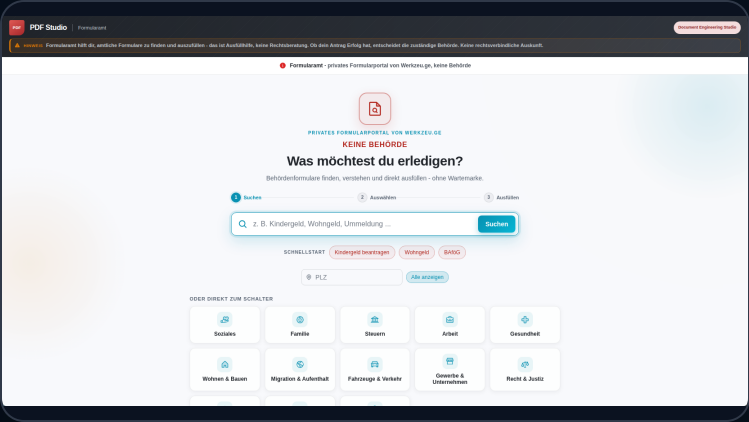

One required invoice becomes the system of work.

SELL TO DELIVER
CRM, quotes, projects, time

PEOPLE OPERATIONS
files, shifts, time, payroll preparation

GOVERNMENT FORMS
6,800+ catalogued, 3,200+ browser-fillable

The moat is the country-specific workflow graph.

01 MANDATE	XRechnung 3.0 CII and ZUGFeRD EN 16931	The formats every domestic B2B workflow must understand.
02 HANDOVER	Validator-passing output and DATEV EXTF	The output passes the official KOSIT validator; the export matches the file boundary German tax advisors already use.
03 LOCAL OPERATIONS	Forms, people, projects, CRM and document memory	6,800+ government forms plus German people workflows and the shared Aktenschränk.
04 TRUST	Deterministic logic on a German-controlled core stack	Core application and data plane in Germany; selected personal files can cross the storage boundary as ciphertext.

Germany is not empty. It is hard to localize.

	ENTRY	LOCAL DEPTH	WHERE IT STOPS
GLOBAL SUITES	Familiar horizontal software	Shallow or absent German localization	Formats, tax handover and public administration
LOCAL POINT SOLUTIONS	One German workflow	Deep inside a narrow category	The next workflow becomes another product
WERKZEU.GE	Mandatory e-invoicing	Country-native workflow graph	Expands across the operating layer

INTUIT

QuickBooks was never localized for Germany.

XERO

Strategy narrowed to the US, UK and Australia; German gaps remain.

SQUARE

Germany is absent from its supported-country list.

Evidence: [QuickBooks Global Germany](#) | [Xero support](#) | [Square supported countries](#).

One founder brought a full platform to market.

350+

working tools

6

live product brands

outside funding

"Great idea, too slow."

An anonymous Leipzig audit-and-tax firm exposed a GPU-less virtual-office constraint in the beta.

WITHIN 24 HOURS

21 > 60 FPS

Auto-offered performance mode, measured under software rendering.

Hear the constraint. Isolate the cause. Ship the fix.

The law lands the first workflow. The platform expands the account.

DISCOVER

Free tools and forms

Six focused product doors create category-specific entry points.

ADOPT

Mandatory e-invoicing

A statutory workflow with a clear deadline and immediate utility.

EXPAND

Plus and Pro

CRM, projects, HR, forms and office operations deepen the relationship.

Freemium

free tools and account entry

14 days

trial, then subscription

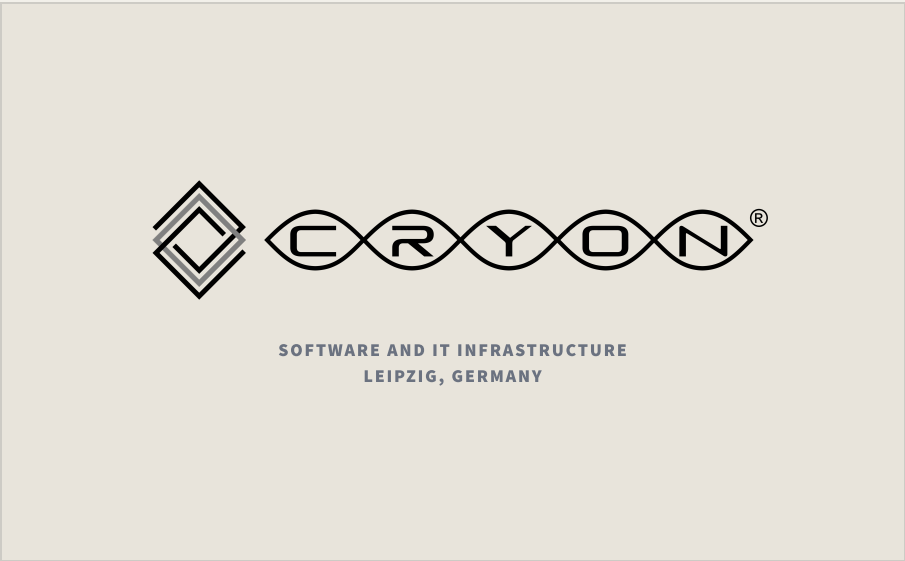

16.99 EUR

Plus monthly list price

PRODUCT

[werkzeugu.ge](#)

One founder. Zero outside funding.

The product, infrastructure and six live category brands were built before the first institutional conversation.

THE FOUNDER ROUND | AUGUST 11, 2026

Turn a solo-built platform into Germany's category leader before 2028.

01

Finish the buying experience

Polish onboarding and the mandate-led path from trial to daily workflow.

02

Add senior execution capacity

Hire a focused German product and go-to-market team around a working core.

03

Scale six distribution doors

Turn category-specific products and strategic partners into repeatable acquisition.

FOUNDER ROUND OPEN

Round size and terms are available directly.

Technical diligence, a founder walkthrough and allocation details are available on request.

Open werkzeug.ge. Then talk directly to the founder: info@werkzeug.ge
